

■ 2 Mahine Ka AI Course

15–18 Saal Ke Beginners Ke Liye

No Coding Required • Real Projects • Professional Profile

Is course mein students bina kisi coding knowledge ke AI tools seekhenge, apni professional identity banayenge aur real projects complete karenge. 2 mahine baad har student ke paas ek live portfolio, GitHub, aur LinkedIn hoga.

WEEK 1–2 | AI + Professional Identity

■ Week 1-2 — AI Ki Duniya + Professional Setup

Theory:

- AI kya hai — simple language mein (Machine Learning, LLMs)
- ChatGPT, Claude, Gemini — fark kya hai aur kab kya use karein
- AI ka future — Pakistan mein jobs aur opportunities
- Professional online presence kyun zaroori hai

Practical:

- ChatGPT se professional CV banwana
- LinkedIn account setup — proper bio, photo, skills add karna
- GitHub account setup — AI se profile README likhwana

Real Project: Apni zindagi ki ek real problem — AI se solution nikalo aur LinkedIn pe pehli post karo

■ **Validation:** LinkedIn profile live + GitHub live + pehli post published

WEEK 3–4 | Prompt Engineering + Content Creation

🏠 ■ Week 3-4 — Prompt Engineering (Core Skill)

Theory:

- Acha prompt kya hota hai — role, context, format, tone
- Chain of thought aur few-shot prompting techniques
- LinkedIn pe konsa content viral hota hai
- AI image generation ka concept

Practical:

- 10 alag prompts likhna aur compare karna — best dhundna

- Canva AI se professional images banana
- CapCut AI se video script likhvana
- LinkedIn pe weekly AI-assisted post publish karna

Real Project: Kisi ek topic pe poora content package — blog post + image + video script — LinkedIn pe live publish karo

■ **Validation:** LinkedIn pe 3-4 posts live + connections badhna shuru

WEEK 5–6 | Personal AI Project

■ Week 5-6 — Apni Khud Ki Cheez Banao

Theory:

- Personal project kya hota hai aur portfolio mein kyun zaroori hai
- Apne interest ko AI se kaise combine karein
- GitHub pe project kaise properly dikhte hain
- README file kyun important hai

Practical:

- Student apna ek interest choose kare — music, sports, cooking, art, kuch bhi
- Us topic pe AI se kuch banao — chatbot, content series, tool, ya presentation
- GitHub pe project upload karna aur README likhna
- LinkedIn pe project announce karna with screenshots

Real Project: Apna personal AI project — jo student ki apni personality aur interest dikhayee

■ **Validation:** GitHub pe project live + LinkedIn pe project announcement post

WEEK 7–8 | Portfolio Website + Sab Ek Jagah

■ Week 7-8 — Complete Professional Package

Theory:

- Portfolio website kyun zaroori hai — HR aur clients kya dekhte hain
- HTML/CSS ka basic concept — sirf samajhna, likhna nahi
- LinkedIn + GitHub + Portfolio = Complete Professional Identity

Practical:

- Bolt.new se portfolio website banana — bina ek line code likhe
- GitHub pe website ka code daalna
- LinkedIn update — sab projects, skills, aur portfolio link add karna
- Portfolio mein GitHub aur LinkedIn dono link karna

Real Project: Complete professional package — sab kuch ek jagah connected aur live

■ **Validation:** Live portfolio website + sab platforms ek doosre se connected

COURSE KE BAAD — HAR STUDENT KE PAAS HOGA

Platform	Kya Hoga	Proof
■ LinkedIn	Active profile + 6-8 posts + connections	Live link
■ GitHub	Account + 2-3 projects uploaded	Live link
■ Portfolio	Live website with all projects	Live link
■ AI Project	Apni khud ki banai cheez	GitHub + demo
■ CV	AI se bana hua professional CV	PDF

WEEKLY VALIDATION DASHBOARD

Week	Student Ka Deliverable	Proof
1-2	LinkedIn + GitHub setup + pehli post	Profile links
3-4	Content package LinkedIn pe live	Post links
5-6	Personal AI project on GitHub	GitHub link
7-8	Live portfolio website — sab connected	Website link
